Explanation of Other Funds:

\$25,000 in FY09 Local Funds reflects the Municipality of Anchorage's 50/50 local road bond match if the requested \$25,000 for the project is funded in the FY09 Capital Budget.

Detailed Project Description and Justification:

This project will construct traffic calming and pedestrian safety improvements in the Airport Heights Community Council area. Specific projects are expected to include chokers, sidewalk, and speed humps.

Many of the roads in the Airport Heights Area are long and straight. As a result, vehicles are often driven above the speed limit. Pedestrian facilities are also inadequate.

The traffic calming and pedestrian safety improvements are high enough priority that the Municipality will provide a 50/50 local bond match to any state grant provided.
